

Proudly presenting the latest release from internationally-acclaimed blues guitarist **DEBBIE DAVIES!**

**DEBBIE DAVIES / Holdin' Court** (rel: 10/27/09)

A pioneering woman in the world of electric blues guitar and a veteran of 22 years on the road, **DEBBIE DAVIES** has earned the love and respect of her peers and a worldwide fan base. She has released a dozen solo CDs, been honored with countless nominations and a Blues Music (WC Handy) Award, and continues to grow as one of the world's outstanding blues players.

Debbie brings her seasoned licks and soulful sensitivity to the groundbreaking, all-instrumental **Holdin' Court**. Along with a collection of her own originals, this Little Dipper/VizzTone release is peppered with homages to the electric blues players of the 1960s

such as Otis Rush, Albert Collins, Gatemouth Brown, and Kenny Burrell, who all inspired her to pick up the guitar and play this music in the first place. Having shared the stage with a veritable "who's who" of top blues artists, this time Debbie keeps it simple and tight with her road-tested rhythm section of bassist Casandra Faulconer and drummer Don Castagno, plus Paul Opalach on keys.

*The blues world has long been aware of **Debbie Davies'** talent as a singer, guitarist and songwriter but with the release of "**Holdin' Court**," her brand new all instrumental CD, she proves she's a force to be seriously reckoned with. Besides her obvious technical command of the instrument, her blues vocabulary is extensive and reveals a depth that only someone who has dedicated their life to their work can accomplish. This is a thoroughly enjoyable collection of original tunes and re-interpretations of classics that never get dull for one second. There's plenty of diversity in grooves, tonality and phrasing to make "Holding Court" totally enjoyable from start to finish. Debbie's fire and musical taste prevail to make this one **HOT** blues guitar album!*  
– **Duke Robillard**
